

Aaron Zomback

Hello, I'm Aaron. I'm a self-taught software developer and UX designer. I'm a highly motivated individual who can learn things quickly and I enjoy collaborating in a team environment. I'm also a former research scientist with vaccine research experience. My goal is to combine my scientific expertise with my technological interest to improve medicine and healthcare.

PROJECTS

TimeSink™ – *A web app for an online cinema platform*

Designing and developing an online platform for filmmakers to present their work and receive user reviews. I am writing the application using Ruby on Rails.

FILMS

Sovereign Blue– 2018, *short film*

My second short film that I created while I was living and working in Brooklyn, NY - I wrote, produced, and directed this short, featuring Rodney Ferrer as the maniacal CEO of a multi-media company. A review of the film can be found [here](#) at UK Film Review.

Expanded Metal – 2016, *short film*

My first short film that I created. It later went on to screen at the 2017 Philip K. Dick Science Fiction film festival in New York City.

tools: Figma, Framer, Command Line, Git & GitHub, GraphPad Prism 6, SeqBuilder, Excel, Word, Powerpoint, Figma, Photoshop, Premiere Pro.

LABORATORY experimental design and execution, safety protocols, mastery of tools such as pipettes, filters, TFF & column purifications, measurements, inventory, note-taking, and analysis.

AWARDS
